

A cartoon illustration of a boy with spiky brown hair brushing his teeth at a white sink. He is wearing a blue t-shirt with a large blue 'S' and green shoes. A girl with brown hair, wearing a blue and white striped shirt and purple leggings, stands nearby. A small white dog with black spots is also present. A speech bubble from the girl contains text about water conservation. The background is a simple room with a checkered floor and a green wall.

Turning off
the water when you brush
saves you 6 to 28 gallons
of water per day, which
adds up to over 10,000
gallons a year!
