

AQUA

"Conserve Water"

The Adventures of Aqua the Water Champion
and Her Little Brother Squirt

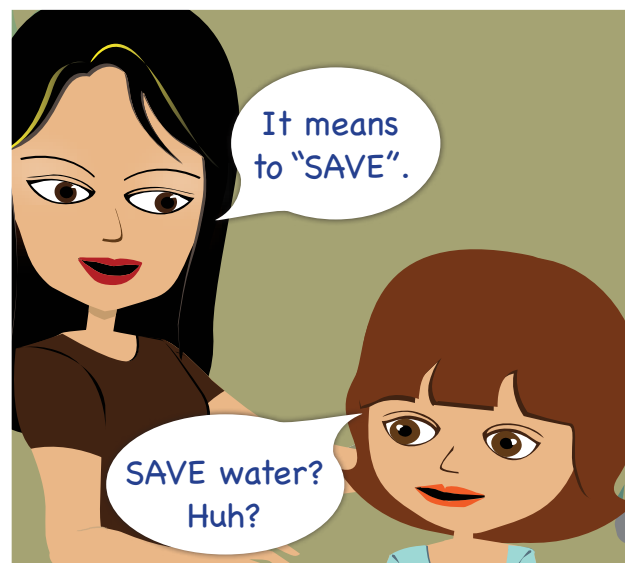

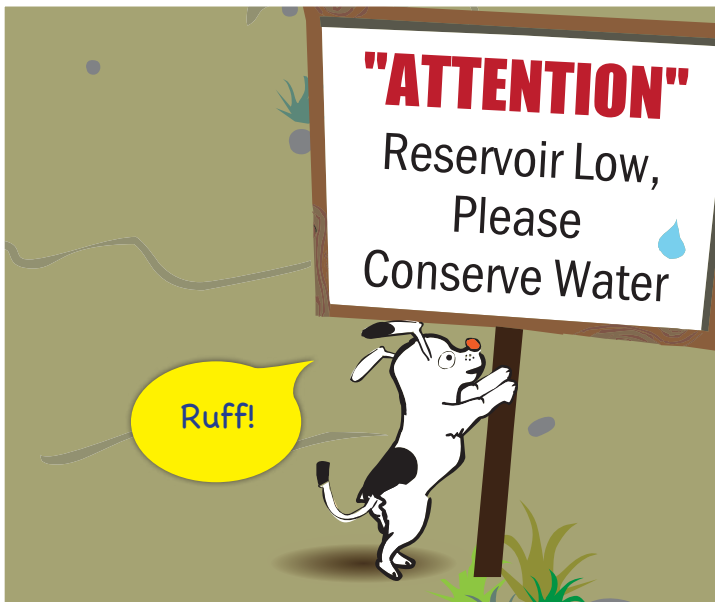

One day, 8 year old Aqua and her Mom decide to take a walk by the beautiful reservoir that their family gets its water from. When they get there — yikes! They find out that the reservoir is low and they need to conserve.

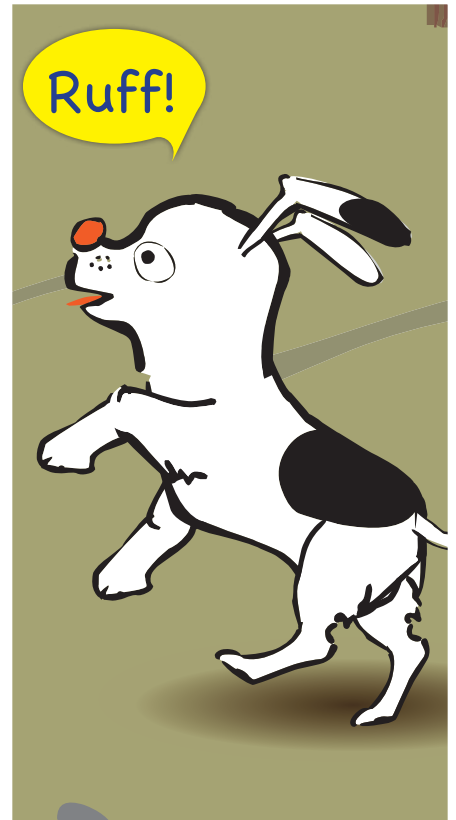

With the help of her trusty dog, Sparky, Aqua gets her family to change a few habits that waste lots of water. Even her little brother Squirt helps out!

Just like Aqua, you can help your family learn how to save water and money, too!

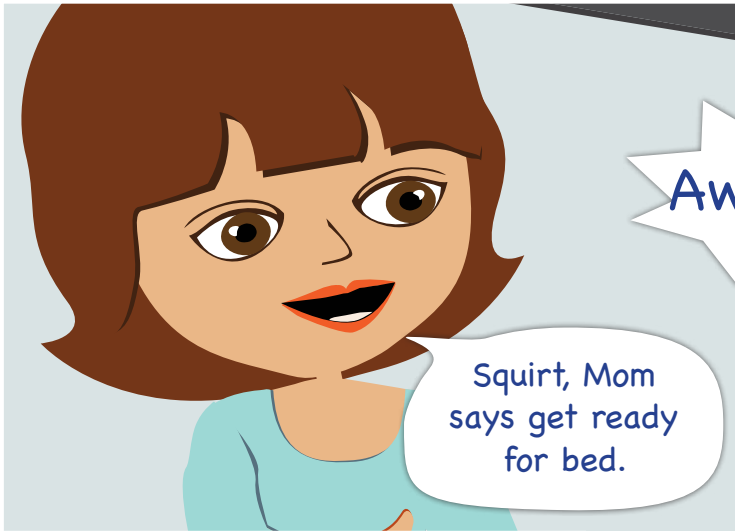

On a beautiful afternoon,
Aqua, her Mom and Sparky the dog
are walking at the reservoir.
